Haris Riski Rakhman

“ Design is not just what it looks like and feels like. Design is how it works.

- Don Norman

About Me

I am a Product Designer with over 2 years of experience, specializing in responsive user interface design, user research, and interactive prototyping. I have led various projects, including mobile applications and web platforms, which have successfully increased user satisfaction by up to 20%. My goal is to create engaging and enjoyable user experiences that combine aesthetics with functionality

PERFORMATRIX

PERFORMATRIX

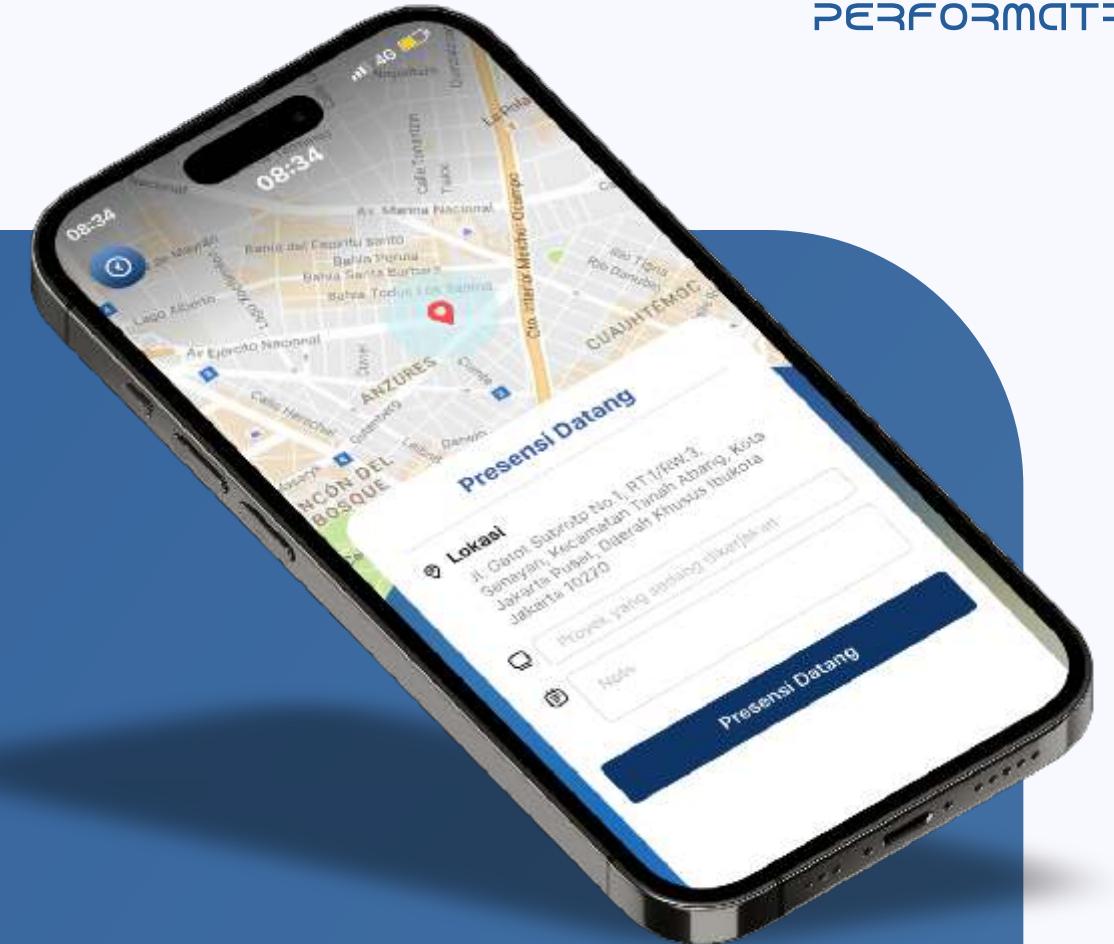

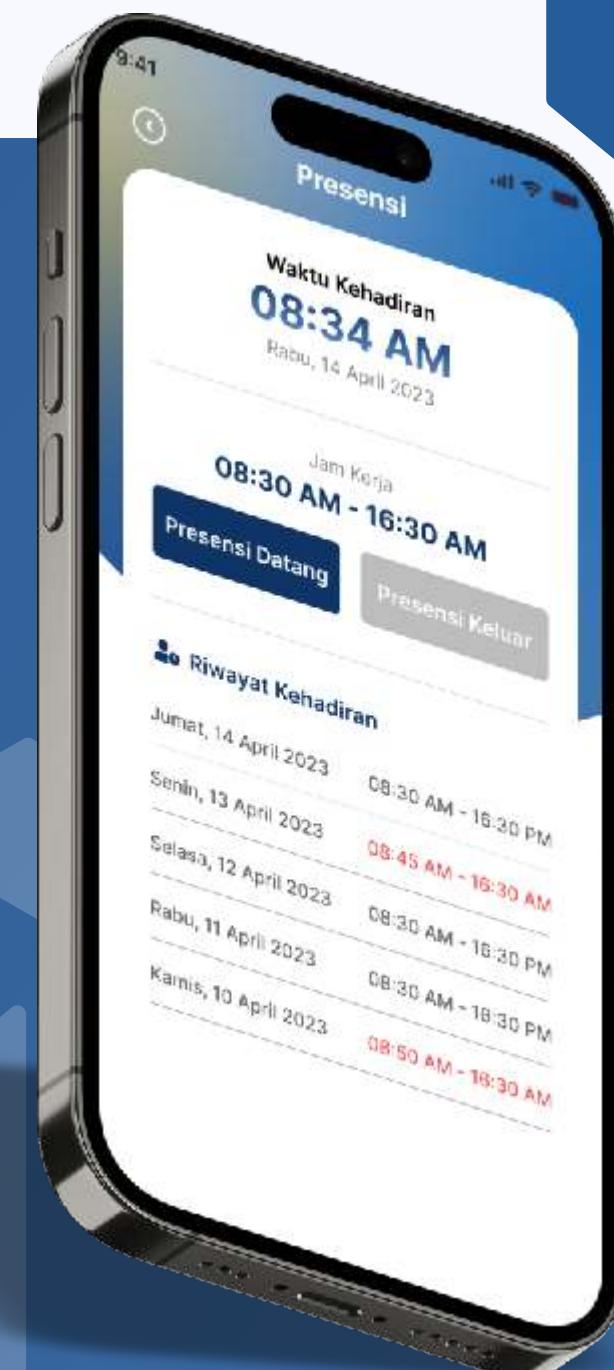

PERFORMATRIX

Software designed to monitor and record employee attendance at work. This application allows employees to record their arrival and departure times. Recorded attendance data can be used to calculate salaries, manage leave, or analyze attendance patterns. Attendance applications are often integrated with broader human resource management systems (HRIS) to provide a unified solution for managing employee information.

Cek Gurinya ngiklan pake akun iklan whitelist tanpa fee top up

Tarik Nafas Sejenak, Mari kita hitung sederhana perbandingan keduanya

*Whitelist di Tempat Lain

Mengoptimalkan Facebook Ads Dengan Akun Iklan Whitelisted MJO DigitalCrafts

Satu-satunya akun iklan whitelist tanpa Fee Top Up

Biaya Flat Selamanya

- Iklan 99% Lebih Mulus
- Minim Drama Perakunan iklan
- Tanpa tagihan fee top up yang bikin deg-degan

Dengan Fee Top Up

Contoh Fee 5%

Awal Spending Rp. 2.000.000 Fee top up yg harus di bayar 5% x 2.000.000 =

Rp 100.000/Top Up

Misal iklan winning Budget di scaling menjadi spending Rp 1.000.000 / Hari, On Average budget iklan sebulan Rp 30.000.000 / Bulan. Fee top up yg harus di bayar 5% x 30.000.000.

Rp 1.500.000/Bulan

*Biaya fee top up menjadi bersifat dinamis, Semakin besar saldo yang di top up semakin besar juga fee top up yang di bayarkan

VS

Biaya subscribe langganan sebesar 399 ribu

Spending iklan 2 juta bayarnya tetap 399 ribu

Spending iklan 50 juta bayarnya tetap 399 ribu

*Biaya fee top up D Rupiah, Berapapun saldo yang di top up tidak dikenakan biaya tambahan fee top up sama sekali

Bergabung dengan lebih dari 500+ Client

LIVE BLOOD ANALYSIS

The Live Blood Analysis application is specifically designed to support the analysis of blood samples using a microscope. This application facilitates the analyst team or users in conducting accurate and efficient blood sample analysis and compiling detailed reports. The document is prepared for users and the development team to ensure a unified understanding of the Live Blood Analysis application. It is expected that users will gain a comprehensive picture of the application, and for the development team, this document serves as a technical reference.

Usercase

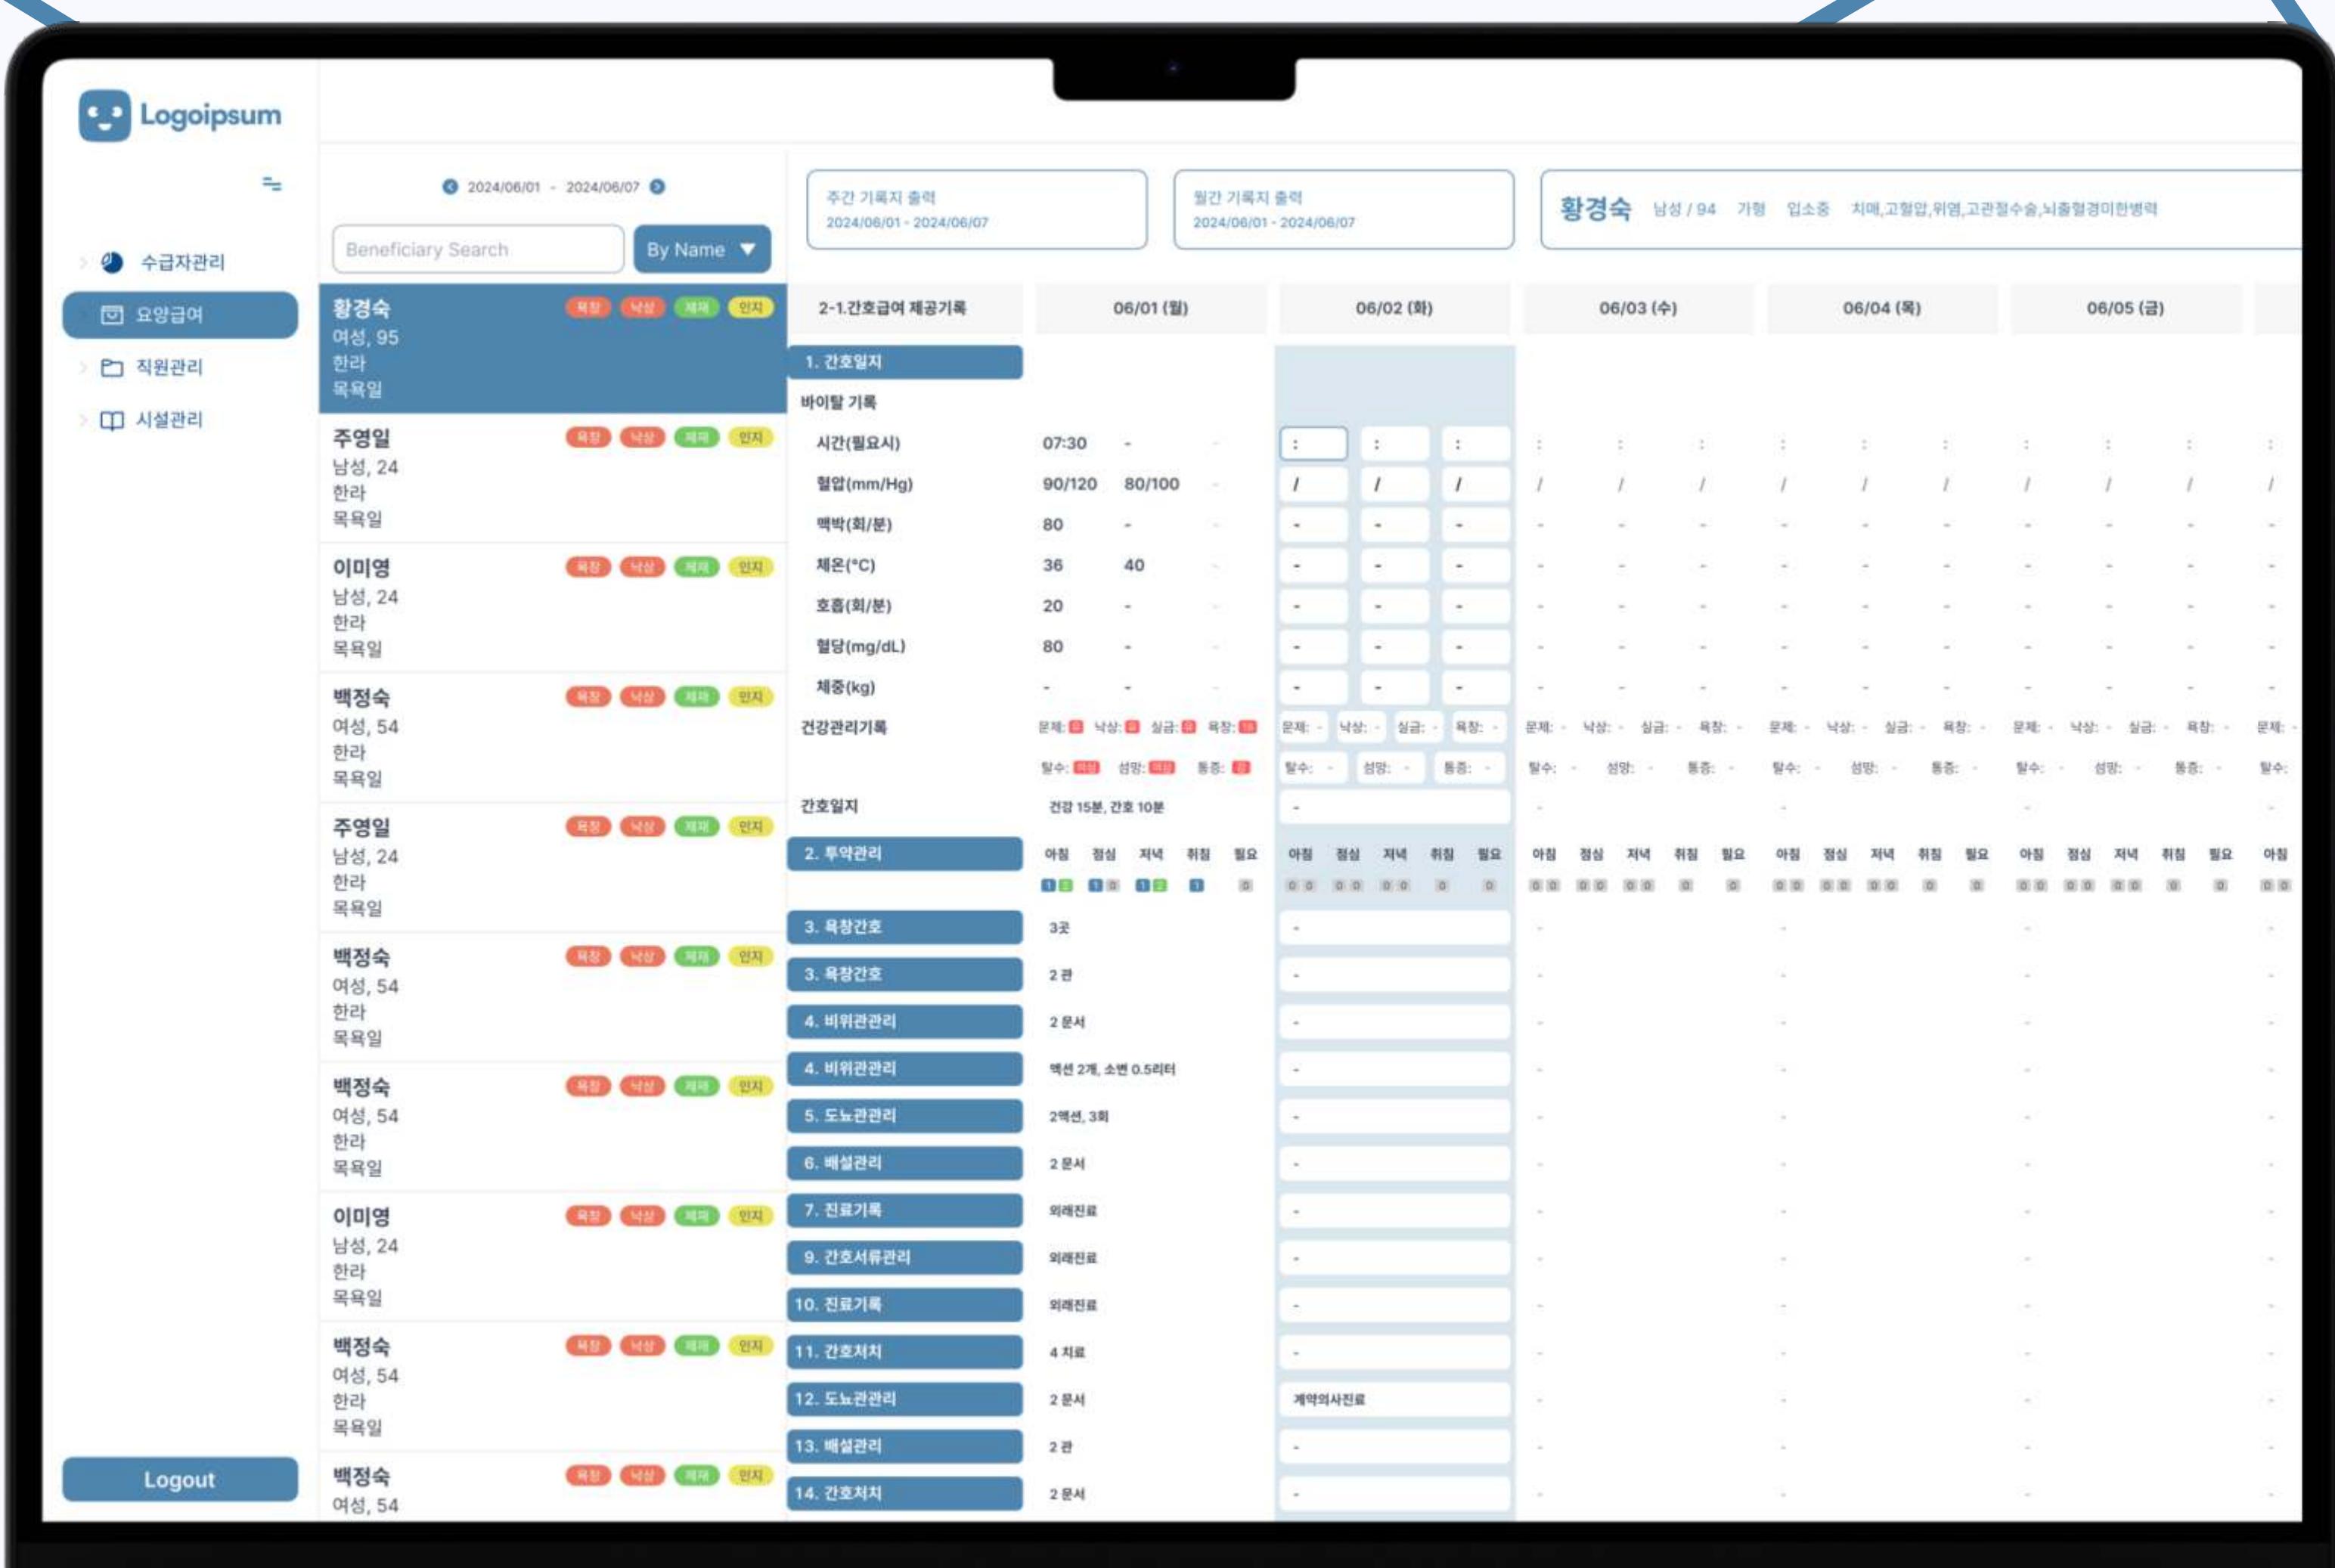

Web Design

A screenshot of the application's dashboard. It features a large circular chart titled 'Statistik Pasien' with a total of 200 patients. The chart is divided into three segments: Perawatan (90), Check Up (70), and Lain-lain (40). Below the chart, there is a bar chart showing monthly patient counts from January to December. The top right shows a microscopic view of blood cells with the date '12 / 12 / 2024' and the text 'Pemeriksaan ke 3'. The top left shows the name 'Mahendra Prabowo'. The left sidebar includes a logo for 'Logo Ipsum Plus' and a navigation menu with items like 'Dashboard', 'Master Data', 'Kondisi Darah', 'Diagnosa Kesehatan', 'Reaksi Tubuh', 'Pasien', 'Pemeriksaan', 'Hasil Pemeriksaan' (highlighted in blue), 'Analisis', 'Laporan', 'Backup & Recovery', 'Backup', 'Recovery', 'Pengaturan', 'Akses', 'Log Aktivitas', and 'Tentang'.
